

CRAFT STORAGE POLICY SEPT 2024

Eligibility Criteria for craft storage at Queenscliff Surf Club

1. Members must compete for QSLC in at least three carnivals including Northern Beaches Branch and State to be eligible for a rack on the LHS of board room (i.e. the competitors rack) as you enter from the beach .
2. Individuals who compete are eligible to store one craft each. For those competing in ironperson can store one board and one ski.
3. For non-competing members who regularly want to use their Boards, the rack on the right-hand side of Board room is available, on a first come first serve basis.
4. No storing of boards standing upright against the wall, as this is for the nippers only.

Please be aware that we are the only club of the larger clubs on the Northern Beaches that does not charge for board storage. We are not planning to charge for board storage at present.

Priority must remain with competitors who represent the club. We remain committed to including and accommodating social paddlers but due to constraints of space will retain discretion as to the storing of boards.
